

JOHN CEDRICK C. BAILON

Tabaco City, Albay | 09943801688 | sedorikku87@gmail.com | <https://sedorikku-portfolio.vercel.app>

SUMMARY

A BS Information Technology graduate specializing in full-stack development with hands-on experience in designing, developing and maintaining responsive web applications. Proficient in architecting relational databases and building dynamic user interfaces using modern web frameworks. Adaptable and fast learner, skilled in leveraging modern technologies to create reliable systems that improve workflows.

EDUCATION

Bicol University College of Science

August 2022 - June 2026

Bachelor of Science in Information Technology

WORK EXPERIENCE

Department of Science and Technology – Region V

February 2026 - May 2026

IT Intern | Regional Center Site, Rawis, Legazpi City, Philippines

- Led the development of an Event Management System (InVta) as the full-stack developer using PHP Laravel, Livewire, Tailwind CSS, and MySQL through iterative sprint cycles (Scrum).
- Developed scalable RESTful APIs to ensure seamless data synchronization between the central database and the mobile application endpoints
- Provided IT support by resolving technical issues, hardware and software troubleshooting, networking and cable management, and assisting in technical setup for presentations and meetings.

PROJECTS

InVta – Event Management System

Internship Project | Lead Developer | Flutter, PHP Laravel, Tailwind CSS, Alpine.js, MySQL, REST APIs

- Led the end-to-end development of a comprehensive event management platform for DOST Region V, managing project architecture, Agile workflows, and team version control via Git and GitHub.
- Developed complex database logic and backend architecture to support multi-level user roles, parent-child event structures, real-time QR code attendance tracking, and a point system
- Designed and implemented dynamic, user-friendly frontend web interfaces utilizing Tailwind CSS and Livewire to enhance the overall user experience.

SwisaAGAP – Centralized Grant Management System

Capstone Project | Full-Stack Developer | Flutter, PHP Laravel, Tailwind CSS, Alpine.js, MySQL, REST APIs

- Designed and developed a grant management platform for Castilla Sorsogon, digitalizing paper-based application processing, approval workflows and document handling.
- Built robust backend logic with Laravel and responsive frontend web interfaces utilizing Tailwind CSS and Alpine.js.

Other Projects

- ARTieh – E-commerce platform for artists in Albay | PHP Laravel, Tailwind CSS, JavaScript, MySQL

SKILLS

- **Programming & Application Development:** PHP, JavaScript, C#, Java, HTML, CSS, Tailwind CSS, Bootstrap, Laravel, Livewire, Alpine.js, MySQL, Flutter, REST API Integration
- **Development and Productivity Tools:** Microsoft Office Suite, Google Workspace, VS Code, Visual Studio 2022, GitHub, Figma, Canva, XAMPP, Miro, Lucid Chart, Claude, Gemini
- **Development Practices:** Responsive Web Development, File Structuring, UI/UX Design, MVC Architecture, API Integration, Quality Assurance Testing, Debugging
- **IT Support:** Hardware Troubleshooting, Network Administration & Configuration, Cable Management, Cisco Networking Fundamentals, Technical Issue Resolution, Data Management, End-User Support
- **Soft Skills:** Adaptability, Analytical & Critical thinking, Team Collaboration, Attention to Detail
